

LAMP-SHAPED FLYTRAP

〔發聲動機 Motive of Creation〕

Buzz buzzzz你也正為了漫天飛舞的蒼蠅 困擾嗎?傳統黏蠅紙的出現有效地為大眾解決 了蒼蠅胡亂飛的問題;但我們發現,赤裸裸攤在 一旁的黏蠅紙難免有蒼蠅外露給人觀感不佳的 疑慮,即為無法有效的兼顧「衛生和美觀」。 於是,歡蠅光臨誕生了。 Buzz buzzzz.....Are you also annoyed by the flies that fly in the sky? The traditional flypaper effectively solves the problem of flies around everywhere, but we found that the exposed flypaper with trapped flies is inevitably poor impression for people. That is to be impossible to effectively balance hygiene and beauty.

Therefore, "Lamp-shaped flytrap" comes to birth.

〔作品概念 Concept〕

歡蠅光臨結合捕蠅紙與燈具提升視覺美感。在生活中,不難在燈泡底下看見成群飛舞的蚊蟲蒼蠅,我們利用此視覺效果將外露的蒼蠅吸引至燈狀捕蠅紙內;在黏滿蒼蠅後,好比燈光漸暗須換上新燈泡,捕蠅紙本身也採抽取式更換,讓你解決蒼蠅困擾的同時還能多了點趣味。

Lamp-shaped flytrap combines with flypaper and lamp to enhance the visual beauty. In our daily life, it is often to see swarms, flies and mosquitoes in groups under the light bulb. We use the visual effect to attract the appeared flies to the lamp-shaped flypaper. After the flies are fully trapped, the light bulb needs to be replaced with a new one and the flypaper itself can be also renewed by removable type, so that you can solve the problem of flies and have more fun.

- a. 捕蠅紙更換
- b. 使用情境模擬
- c. 歡蠅光臨內容物

〔設計師發聲 Interview〕

可以分享一下你們是如何搜集靈感的嗎?

- 嘉大多是生活經驗吧。
- 庭 其實我們兩個個性啦、做事方式啦甚至是喜好都完全不一樣(笑)。所以我們討論就是不斷地聊天,在交換生活經驗的過程,找到彼此認同或有fu的想法,激發不同的火花。

想問測試產品效果的過程以及有發生什麼有趣的事呢?

應該是主題特色太鮮明吧,導致周遭朋友看到蒼蠅就會直接聯想到我們,常常把歡蠅光臨掛嘴邊。

意見相岐時是如何克服的呢?

- 庭 還在學習中啦....。
- 嘉 其實我們不排斥吵架,但通常是就事論事,然後冷戰,接著解開心結吧。不過我們會很有默契地每隔一陣子把對彼此的結說開。畢竟吵一吵不和好要幹嘛(笑)。
