

# 紙巢計劃

就算一無所有，  
也有資格好好活著。

Live well, even with nothing at all.

紙巢計劃解決了街友在公共區域睡覺因為燈光、路人的目光和其他在外干擾因素造成的不安全感。我們製作臨時庇護處——紙巢，使用牛皮紙作為主要材料貼近街友生活，具有結構穩定、可折疊、易搬運、使用便捷的特點，同時兼具設計美感以及人文關懷。透過紙巢及其設計，讓街友感受到社會的溫暖以及裝置使用上的安全感正是這個專題的目的。

The Homey Project Team offered a solution to solve the insecurity problem that homeless people may have when trying to sleep in public areas, such as bright lights, staring from pedestrians and other external interfering factors. We made temporary shelters——The Paper Capsule. Kraft paper, a material familiar to those living in homeless circumstances, was used as the primary material. The Paper Capsule was characterized with a stable, foldable, easy to carry and convenient to use structure as well as aesthetic design and humanistic care. Through the Paper Capsule and its special design, the homeless would feel the warmth and caring of the community and the installation of these units would provide a sense of security. This is what the Homey Project Team hopes to achieve.

紙巢內部長 190 公分，寬 100 公分。可以容納一名成年男性。紙巢的設計理念來自寄居蟹殼，利用立體書概念折疊而成。紙巢重 3 公斤，方便搬運，簡單的開收步驟讓年紀大的街友也可以使用。在上面開紗窗，可以有效的隔離蚊蟲以及通風。

The interior dimensions of the Paper Capsule are 190cm (length) x 100cm (width), enough to accommodate an adult male. The design of the Paper Capsule was inspired by the shell of the hermit crab, which folds in a manner similar to that of a children's pop-up story book. The Paper Capsule weighs about 3 kilograms. It is convenient to carry, easy to expand and fold and usable even for the more elderly among the homeless. Effective isolation of mosquitoes and ventilation were achieved by opening the screen window above.

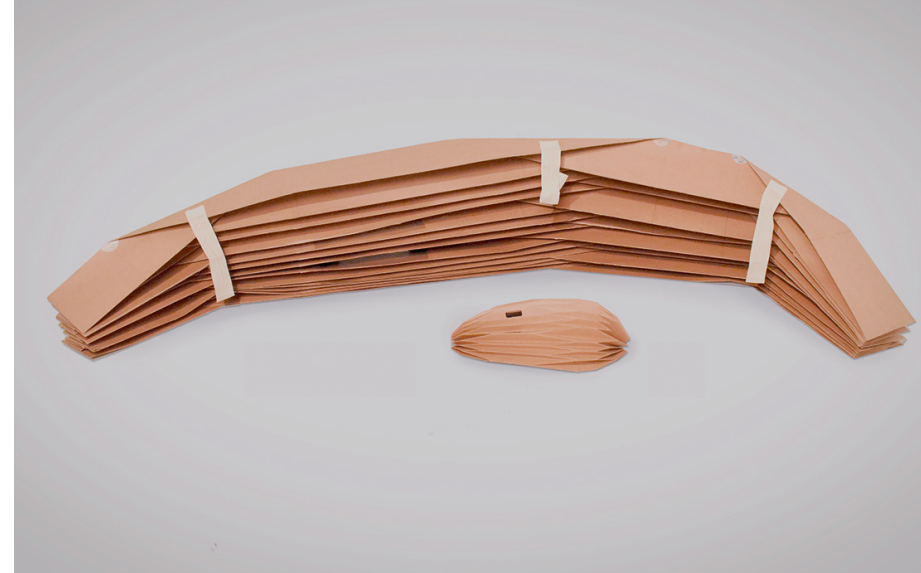

纸巢放置在纸巢供应站。纸巢供应站设立在街友较常出没的地點，像是地下道，火車站附近。街友可以在晚上自行取用，隔天早上归还。照顾街友的自尊，解决携带不便的问题。

Paper Capsules will be placed at specially designated Paper Capsule Stations situated in public areas, where homelessness is most common, such as underpasses and train stations. At night, homeless people may help themselves to a capsule and return it to its place the next morning. This solution preserves the self-respect of the homeless, while at the same time eliminating the need for carrying another cumbersome item.
